
Introduction to Swiss and International Taxation

*Our lecture course in the fall semester 2020 is designed to give an **introduction to international taxation**. In today's globalised economic world international tax law plays a prominent role. The interaction between international and domestic tax rules is of a highly complex nature. Therefore, we will cover the basic elements of the "**OECD Model Tax Convention on Income and on Capital**" as well as the basic Swiss domestic rules regarding international taxation.*

*We would like to equip the course participants with key knowledge in international taxation. Our course module is open for students at the **master level as well as for LL.M. students**, whereby **international students** are very welcome.*

*Prof. Dr. Adriano Marantelli
Universität Bern
Institut für Steuerrecht
